1.0 Warranty conditions

The five-year Eminent warranty applies for all Eminent products unless mentioned otherwise before or during the moment of purchase. When having bought a second-hand Eminent product the remaining period of warranty is measured from the moment of purchase by the product's first owner. The Eminent warranty applies to all Eminent products and parts inextricably connected to and/or mounted on the main product. Power supply adapters, batteries, antennas and all other products not integrated in or directly connected to the main product and/or products of which, without reasonable doubt, can be assumed that wear and tear show a different pattern than the main product are not covered by the Eminent warranty. Products are not covered by the Eminent warranty when exposed to incorrect/improper use, external influences and/or when opened by parties other than Eminent.

2.0 Introduction

Congratulations on your purchase of this high-quality Eminent product! This product has undergone extensive testing by Eminent's technical experts. Should you experience any problems with this product, you are covered by a five-year Eminent warranty. Please keep this manual and the receipt in a safe place.

2.1 Features and features

You have parallel devices, such as a printer, but they cannot be connected to your computer. Then the Eminent USB to Parallel Converter is what you need! This USB to

parallel converter lets you connect a parallel device to your USB port, even with Bi-directional operation.

2.2 Packing contents

The following parts need to be present in the packing:

- EM1018, USB to Parallel Converter.
- Manual.

2.3 Before you begin

1. This product is suited for Windows 98SE/ME/2000/XP/Vista.
2. Your computer or notebook should be equipped with an available USB port.
3. This product can be connected to a printer equipped with a 36 pin Centronics connector. (Fitted on most printers).

3.0 Installing the hardware

1. Make sure that your printer is installed properly on your computer. After this, make sure that all the equipment is turned off before starting the installation.
2. Connect the USB to parallel cable to an available USB port on your Notebook or Desktop PC.
3. Connect the Centronics connector to your printer.
4. Power on all equipment and wait until the computer is rebooted.
5. Windows will automatically detect new hardware. Windows will locate the drivers and install them on your system. It will be installed as 'USB Printing Support' in Windows 2000 or higher. Windows will now make a virtual printer port. Notice that this is not a normal printer port like LPT1 or LPT2.
6. Your printer will be recognized and installed automatically.
7. After installation please restart your computer.
8. When your computer is finished, go to 'Start', 'Settings'. Then go to 'Printers'.
9. Right click on the printer and open 'Properties'.
10. Go to the 'Ports' tab. Check if 'USB001' is selected (for example) and not LPT1 or LPT2.
11. To check if the USB to Parallel Converter is working properly, go to the 'General' tab to print a test page.

4.0 Frequently asked questions

- Q: My computer does not recognize the USB to Parallel Converter?**
- A:** Connect the EM1018 directly to your computer, not using a USB hub or extension cable.
Check for updates on the website of the manufacturer of your

motherboard/USB ports. And check www.windowsupdate.com for Windows updates.

Q: The printer has been connected but I am unable to print?

A: Check if your printer is installed properly, if necessary reinstall the printer. Check if you have selected the USB port. Open the properties of your printer and go to the tab 'Ports' to check this.

5.0 Service and support
