- Video output for VGA monitor or TV
- Easy installation

SPECIFICATIONS

• 5 YEAR WARRANTY

- Digital Surveillance Recorder :
- -----
- Dimensions in mm. (WxHxD): 297x56x232
- Weight in grams: 1150
- Video compression: H.264 hardware
- Video Input: 4 x BNC (1.0Vp-p, impedance 75 ohm)
- Video Output: 1x BNC and 1x VGA
- Video Standard: PAL (25fps) and NTSC (30fps)
- Video Image: Full color
- Resolution: 4-Channel full D1 recording, D1/HD1/CIF (720x576, 720x288, 360x288 PAL)
- Audio compression: ADPCM, 32kB/s
- Audio Input: 4x cinch
- Audio Output: 1x cinch
- Video Port: 15-pin VGA
- LAN Port: 10/100 Ethernet (RJ45)
- USB: 2x USB port (1 for mouse, 1 for memory stick)
- HDD: Optional SATA Hard disk up to 2Tb
- Power Input: DC 12V
- Interface: RS485, 1x alarm output, 4x Alarm input
- PTZ Support: Pelco-D/P (for pan-tilt-zoom cameras)
- Supports: Dynamic DNS, UPnP, Motion Detection, E-mail alert, DHCP
- Update: Firmware upgradable
- External control: LAN, Internet and mobile devices
- Power adapter: 100-240V~ 50/60Hz 0.5A, 12V DC 2A
- Surveillance camera :
- -----
- Dimensions in mm. (WxHxD): 90x82x160
- Weight in grams: 256
- Sensor: 1/3" CCD Sony-sensor
- Processor: Sony DSP
- Resolution: 420 TV lines
- Pixels: 512H x 582V
- Lens: 3,6mm
- Infrared leds: 24
- IR distance: 20meter
- Min. illumination: Color 0,1 LUX, Black & White 0 Lux (IR LED On)

- White balance: Auto
- Weatherproof: IP66
- Power supply: 12V DC 200 mA (IR on) (not included)

Camera Surveillance Kit with recorder and 2 Indoor/Outdoor Cameras

SYSTEM REQUIREMENTS

Monitor your belongings with two security cameras and a 500Gb security recorder!

Type: CCTV Recorder

DESCRIPTION

Keep an eye on your belongings with the Eminent EM6105 Camera Surveillance Kit. This kit is a total solution to setup your own surveillance system. Two infrared cameras and a digitale surveillance recorder enable you to watch live images on your computer monitor. Connect the digitale surveillance recorder to the Internet to see images wherever you are. The 500Gb digitale surveillance recorder stores images when motion is detected, or use time based recording if you wish to record images when you are not at home.

Monitor indoor and outdoor areas securely

The Eminent EM6105 Camera Surveillance Kit offers you a 500Gb digitale surveillance recorder with four analogue channels. The digital video recorder allows you to watch live images and store images on the internal hard disk. Thanks to its built-in H.264 compressor, the digital video recorder can store high-quality video for extended periods. Not only video images can be recorded but also audio can be recorded.

Indoor and outdoor camera

With the two surveillance cameras you can monitor both indoor and outdoor areas securely and comfortably. The cameras are fitted with infrared LED's, so you can still see up to 20 meters in dark areas. Use the supplied adjustable mounting bracket, screws and plugs to position the cameras to your desire.

A complete solution

You will find all items needed to keep an eye on your properties in this box. A four channel digitale surveillance recorder with built in 500 Gb hard disk is set to record immediately. A mouse and remote control are added to control the surveillance recorder. The kit comes with two infrared cameras for use both indoor and outdoor, and two video cables. This enables you to mount the cameras directly on your desired position. You can even connect two more cameras, since the digital video recorder supports four cameras in total.

Watch live video on your computer monitor, via the Internet or your mobile phone

Watch live video on your computer monitor. When your surveillance recorder is connected to the Internet, you can even view the images when you're not home. You can visit the webpage of the surveillance recorder to see the images from the connected cameras.

No computer near you? No problem, you can also use your mobile phone or tablet to view the live images from your surveillance recorder! We have added support for most common mobile devices like android devices, iPhone, iPod and iPad!

Create video evidence

You can choose to record on specific times or when motion is detected. Should you need to backup a specific recorded event, you can use the built-in USB port to backup to an external hard disk or flash device. Also a network-backup function is available. Additionally, you can export your video as a file and burn it to a CD-rom. In case of a burglary, you will fast and easily have your video evidence available.

Record and playback video at the same time

The digital surveillance recorder has a H.264 processor that allows you to record and playback video at the same time, with no loss of quality. So if you enter playback mode, the digital video recorder will keep on recording video and audio in the background.

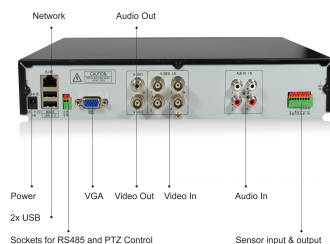

With the Eminent Camera Surveillance Kit, you won't be missing anything!

Camera Surveillance Kit with recorder and 2 Indoor/Outdoor Cameras

Monitor your belongings with two security cameras and a 500Gb security recorder!
