High Resolution Infrared Surveillance Camera - rev1

Infrared camera for monitoring outdoor and indoor areas!

DESCRIPTION

The Eminent EM6120 High Resolution Infrared Surveillance Camera is a solid infrared camera, with a weatherproof housing. You can use the surveillance camera as an expansion on your current surveillance kit. The surveillance camera has infrared leds to enable you to see up to 20 meters in dark areas.

High resolution

Every detail is captured with the Eminent EM6120 High Resolution Infrared Surveillance Camera. The EM6120 uses an advanced sensor which catches all videos in high resolution.

Expand your surveillance kit

The surveillance camera is ideal to use with your existing security kit. In order to record images, the Eminent Outdoor/Indoor Surveillance Camera should be connected to a surveillance recorder. Connect the surveillance camera to an Eminent Surveillance Recorder for optimal surveillance options. You also need the a Coaxial cable to connect the surveillance camera to your system.

Indoor and outdoor camera

You can use the EM6120 for inside and outside surveillance of your house or office. The surveillance camera has a weatherproof housing (IP66) and is fitted with infrared leds. This makes the camera ideal to monitor entrances, areas and properties indoor and outdoor.

Fitted with infrared leds and shield

You can view up to 20 meters in a dark environment because of the 24 infrared lights. The surveillance camera is also fitted with an adjustable sun shield.

Including mounting material

The Eminent EM6120 High Resolution Infrared Surveillance Camera comes with an adjustable mounting bracket for wall or ceiling mounting.
