Coaxial cable for surveillance camera

Connect your surveillance camera with this cable

DESCRIPTION

The Eminent EM6140 Coaxial cable is the easiest way to connect your Eminent camera to your surveillance recorder

Suitable for all Eminent cameras

The EM6140 Coaxial cable is suitable for all Eminent surveillance cameras. The EM6140 video/power cable can also be used to power the Eminent IR illuminator.

Power and video

The cable transfers both video and power. So you do not need a separate power cable or a separate power supply for your camera.

The perfect solution to connect your cameras!
